

I am sending this email to voice my opposition to Bill RB 5447.

It is my understanding that if passed, this bill will have a detrimental effect on the availability and quality of special education for children with special needs. The impact will be on private providers and their employees. Much of what these private providers do is very different from public school services, and they serve a vital role in offering quality services for the benefit of children with special needs and their families.

This legislation will have a very negative impact on them.

Thank you for your consideration.

Sincerely,

Pamela Skudlarek
